

SAFETY DATA SHEET

Revision: 1

Date: 18 July 2022

SECTION 1: Identification of the substance/mixture and company/undertaking

1.1 Product identifier	Medi Derma-Pro Foam & Spray Incontinence Cleanser Bottle 250ml
1.2 Relevant identified uses of the substance or mixture and uses advised against	Medical product to clean skin and remove blood, urine or faeces. Uses advised against: not available.
1.3 Details of the supplier of the safety data sheet	Medicareplus International Limited, Chemilines House, Alperton Lane London HA0 1DX, UK. Tel: +44 (0)20 8810 8811; email info@medicareplus.co.uk.
1.4 Emergency telephone number	Tel +44 (0)20 8810 8811 (UK business hours). UK: 111 (public NHS number for less urgent medical problems). Medical professionals can contact the National Poisons Information Service (NPIS): 0344 892 0111.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to CLP Regulation (1272/2008)	This product does not meet the criteria for classification in any hazard class according to the CLP Regulation, and it is not mandatory to supply a safety data sheet, but this document contains information and advice concerning safe handling of the product.
--	---

2.2 Label elements

Pictogram	None.
Signal word	None.
Hazard statements	None.
Precautionary statements	
Supplemental information	None.

2.3 Other hazards

The product does not contain any ingredient identified as having endocrine disrupting properties.

SECTION 3: Composition/information on ingredients

3.2 Mixtures ^{a,b}

<i>Declarable components</i>	<i>Conc. (wt%)</i>	<i>EC No.</i>	<i>CAS No.</i>	<i>REACH Reg. No.</i>	<i>Classification, supplemental hazards, ATE, M-factor, and SCL</i>
Glycerides, mixed decanoyl and octanoyl, reaction products with oxirane	1 to 5	630-549-7	127281-18-9	NA	Eye Irrit 2, H319; Aquatic Chronic 3, H412
Coco glucoside	1 to 5	604-232-9	141464-42-8	NA	Skin Irrit 2, H315; Eye Irrit 2, H319

SAFETY DATA SHEET

Revision: 1

Date: 18 July 2022

<i>Other components</i>					
Water	50 to 75	231-791-2	7732-18-5	NA	Not classified
Polyethylene glycol (PEG)	10 to 25	NA	25322-68-3	NA	Not classified

^a NA: not available.^b See Section 16 'Other information' for full text of the H-statements.

SECTION 4: First aid measures

4.1 Description of first aid measures

Inhalation	If inhalation is suspected of causing respiratory effects (eg irritation or difficulties in breathing), remove product, and move person to fresh air and keep warm and at rest in a position comfortable for breathing. If symptoms continue, call a doctor.
Skin	Not expected to cause adverse effects. For skin contamination, wash affected area with soap and water. Call a doctor if irritation, rash, or other symptoms occur.
Eye	In case of contact with eyes, rinse eye with room-temperature water or eyewash solution, occasionally lifting eyelids. Call a doctor if irritation persists.
Ingestion	If in mouth, rinse mouth thoroughly with water and spit out rinsings. Water may be given to drink if product has been swallowed. Get medical attention for any symptoms. Do not induce vomiting, unless instructed by medical personnel.

4.2 Most important symptoms and effects, both acute and delayed

May cause eye irritation.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptoms as they occur.

SAFETY DATA SHEET

Revision: 1

Date: 18 July 2022

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable Water spray, foam, carbon dioxide, or dry chemical powder are suitable for use with the product.

Unsuitable Not available.

5.2 Special hazards arising from the substance or mixture

The product is a water-based mixture, supplied in small packages, and is not classified as flammable. However, if involved in a fire, product will decompose producing hazardous smoke, vapours and gases.

5.3 Advice for firefighters

Remove product from fire or cool them with water spray. Firefighters should wear self-contained breathing apparatus and full protective clothing.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Product is supplied in small packages (250 mL/item), which do not pose a hazard, and can be collected.

For bulk spills in professional setting, wear personal protection. Product spill may be slippery. Follow prescribed procedures for responding to all spillages.

6.2 Environmental precautions

The product is placed on the market as small packages containing liquid. The product is not classified for environmental effects.

Prevent spills of bulk material entering watercourses or drains.

6.3 Methods and material for containment and cleaning up

Clean up spill as soon as possible.

For small quantities, collect product or wipe off residue with cloth or paper. For large quantities absorb onto inert material and sweep up.

Rinse contaminated surfaces with soap and water, and collect waste, washings, and contaminated materials for safe disposal.

6.4 Reference to other sections

For recommended personal protective equipment, see Section 8.

For disposal considerations, see Section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid eye contact with the product. Wash hands after use.

7.2 Conditions for safe storage, including any incompatibilities

Store containers in a cool, dry place away from direct sunlight.

7.3 Specific end use(s)

Not available.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

EU limit values None.

National limit values UK: none.

SAFETY DATA SHEET

Revision: 1

Date: 18 July 2022

Monitoring procedure	Not applicable.
Other: human health (DNELs, DMELs)	Polyethylene glycol: DNELs: workers, long-term exposure, systemic effects, inhalation: 40 mg/m ³ ; workers, long-term exposure, systemic effects, dermal: 112 mg/kg/d.
Other: environmental (PNEC)	Polyethylene glycol: PNECs: freshwater, 273 mg/L; sewage treatment plant, 1030 mg/L; soil, 46.4 mg/kg dry soil.
8.2 Exposure controls	
Engineering controls	Not required for normal use of the finished product. Use in a well-ventilated place (eg 3 air changes per hour) is recommended for bulk professional use.
Personal protective equipment	For handling in the workplace, the need for personal protective equipment should be based on a risk assessment for the particular use. Avoid skin contact by wearing chemical resistant gloves (eg nitrile rubber, 0.2 mm thickness). If extensive contact may occur, wear protective clothing (eg apron). Respiratory protective equipment not required for foreseen use. PPE should conform to British (EN) standards, eg gloves EN 420 and 374; eye protection EN 166. Consult PPE manufacturers concerning breakthrough times applicable to your particular use.
Environmental exposure controls	Not available.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

(a) Physical state	Viscous liquid
(b) Colour	Not available
(c) Odour	Not available
(d) Melting/freezing point	Not available (0 °C for water)
(e) Boiling point or initial boiling point and boiling range	Not available (100 °C for water)
(f) Flammability	Not expected (water-based product)
(g) Lower and upper explosion limit	Not available
(h) Flash point	Product: not available (water-based product); PEG: 138.6 °C
(i) Auto-ignition temp.	Product: not available; PEG: 360 °C
(j) Decomposition temp.	Not available
(k) pH	6.5 to 7
(l) Kinematic viscosity	Not available
(m) Solubility	Water: product: not available; PEG: 256 g/L at 25 °C

SAFETY DATA SHEET

Revision: 1

Date: 18 July 2022

(n) Partition coeff. n-octanol/water (log value)	Not available
(o) Vapour pressure	Not available (2310 Pa at 20 °C for water)
(p) Density or rel. density	Not available.
(q) Relative vapour density	Not available
(r) Particle characteristics	Not applicable to liquid
9.2 Other information	Not expected to be explosive or oxidising for water-based product

SECTION 10: Stability and reactivity

10.1 Reactivity	Not available.
10.2 Chemical stability	Stable under recommended storage and handling conditions. No hazardous polymerization.
10.3 Possibility of hazardous reactions	Not available.
10.4 Conditions to avoid	High temperatures, or direct sunlight.
10.5 Incompatible materials	Strong acids, alkalis, and oxidising agents.
10.6 Hazardous decomposition products	Not available.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

(a) Acute toxicity	Based on available data, the classification criteria are not met. ATE _{mix} (oral) > 2000 mg/kg; ATE _{mix} (dermal) > 2000 mg/kg.
(b) Skin corrosion/irritation	Based on available data, the classification criteria are not met. One ingredient present at < 5% is classified for skin irritating effects.
(c) Serious eye damage/irritation	Based on available data, the classification criteria are not met. May cause irritation. Two ingredients each present at < 5% are classified for eye irritating effects.
(d) Respiratory or skin sensitisation	Based on available data, the classification criteria are not met. No relevant ingredient has been classified for this effect.
(e) Germ cell mutagenicity	Based on available data, the classification criteria are not met. No relevant ingredient has been classified for this effect.
(f) Carcinogenicity	Based on available data, the classification criteria are not met. No relevant ingredient has been classified for this effect.
(g) Reproductive toxicity	Based on available data, the classification criteria are not met. No relevant ingredient has been classified for this effect.
(h) STOT-single exposure	Based on available data, the classification criteria are not met. No relevant ingredient has been classified for this effect.

SAFETY DATA SHEET

Revision: 1

Date: 18 July 2022

(i) STOT-repeated exposure	Based on available data, the classification criteria are not met. No relevant ingredient has been classified for this effect.
(j) Aspiration hazard	Based on available data, the classification criteria are not met. Product is an aqueous liquid.
11.2 Information on other hazards	Not available.

SECTION 12: Ecological information

12.1 Toxicity	Based on available data, the classification criteria are not met. Product contains small amounts (< 5% of substances) that are harmful to aquatic organisms.
12.2 Persistence and degradability	Not available.
12.3 Bioaccumulative potential	No relevant ingredient has been identified as bioaccumulative.
12.4 Mobility in soil	Not available.
12.5 Results of PBT and vPvB assessment	No ingredients have been identified with PBT or vPvB properties.
12.6 Endocrine disrupting properties	No ingredients have been identified with endocrine disrupting properties.
12.7 Other adverse effects	The mixture is not classified as hazardous to the ozone layer.

SECTION 13: Disposal considerations

13.1 Waste treatment methods	Small consumer items may be disposed of in landfill. Disposal via the drains is not recommended. The product is suitable for incineration. Bulk disposal must be via licensed waste disposal sites in accordance with national and local regulations. In a professional setting, chemical residues generally count as special waste, and their disposal may be regulated. General requirements are given in the EU Waste Framework Directive (75/442/EEC) and the Hazardous Waste Directive (91/689/EEC), or GB equivalent.
------------------------------	---

SECTION 14: Transport information

14.1 UN Number	Not classified as dangerous goods for transport.
14.2 UN proper shipping name	Not applicable.
14.3 Transport hazard class(es)	Not applicable.
14.4 Packing group	Not applicable.
14.5 Environmental hazards	Not classified as marine pollutant/environmentally hazardous.

SAFETY DATA SHEET

Revision: 1

Date: 18 July 2022

14.6 Special precautions for user Not available.

14.7 Maritime transport in bulk according to IMO instruments Not applicable.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture *UK:* Control of Substances Hazardous to Health Regulations 2002 (COSHH), as amended.
COSHH Essentials: Easy Steps to Control Chemicals; HSE Books 2003 (also available on the HSE web site).
Workplace Exposure Limits EH40/2005 (Second edition, published 2011), Health and Safety Executive.
Product is regulated as a medical device according to EU Regulation 2017/745.

15.2 Chemical safety assessment Not available.

SECTION 16: Other information

Revisions This SDS is the first version in EU format, using classification according to the CLP Regulation or GB equivalent.

Abbreviations ATE, acute toxicity estimate; DNEL, derived no-effect level; DMEL, derived minimum effect level; PBT, persistent, bioaccumulative, and toxic; PNEC, predicted no-effect concentration; vPvB, very persistent, very bioaccumulative.

References Search for chemicals; available at the European Chemicals Agency website: <http://echa.europa.eu/>.
This safety data sheet conforms to Regulation (EC) 1907/2006 as amended by Regulation (EU) 2020/878.

Basis of classification The mixture is classified on the basis of available information on the ingredients.

List of hazard statements H315: Causes skin irritation; H319: Causes serious eye irritation; H412: Harmful to aquatic life with long lasting effects.

Safety data sheet compiled by Alchemy Compliance Ltd. on the basis of information provided by the supplier.
